- Role: Sole author
- Tools: HTML5, CSS3, Bootstrap, Javascript, JQuery, AJAX, JSON, OpenWeatherMap API

Work Day Scheduler | <https://github.com/DVMEND/Work-Day-Scheduler> | <https://dvmend.github.io/Work-Day-Scheduler/>

- Summary: Takes notes for every hour of the work day and saves them in local storage.
- Role: Sole author
- Tools: HTML5, CSS3, Bootstrap, Javascript, JQuery, JSON, Moment API

EXPERIENCE

Receive Dock Clerk

Amazon.com, Inc.

2019 – Current
Moreno Valley, CA

Identify incoming freight and direct them to appropriate dock door destinations.

Use Microsoft Excel to write hourly reports on the status of freight processed, as well as the status of freight in the yard.

Receive Bill of Lading documents from truck drivers and answer any inquiries.

Communicate with associates and managers to ensure that goals on all fronts are being met.

Key Accomplishments:

- Successfully processed over 100 “Live-Load” trucks in a single day
- Recognized as a problem solver and leader.

EDUCATION
